Dear Mike,

Rod's people have been keeping him on the go, apparently determined to initiate through him MKTIMECLOCK.

He has returned some of the papers to me but not all. To be sure I have all and because copying is a problem here I'm sending only those of which he did send duplicates. He was to have returned my "originals" and to have made two copies, one for himself and one for you.

I have written him.

It should not be too hard to fill in some of the gaps.

If you can take the time I'd appreciate any commentary you would prepare

His people are not predictable because of a mercurial personality. So, I'll be looking for some alternatives.

I've been busy in court and in preparation for court, I think with some success.

Seems that the last I heard from you you had the bug. Hope that is past and that you are well again.

Best,
